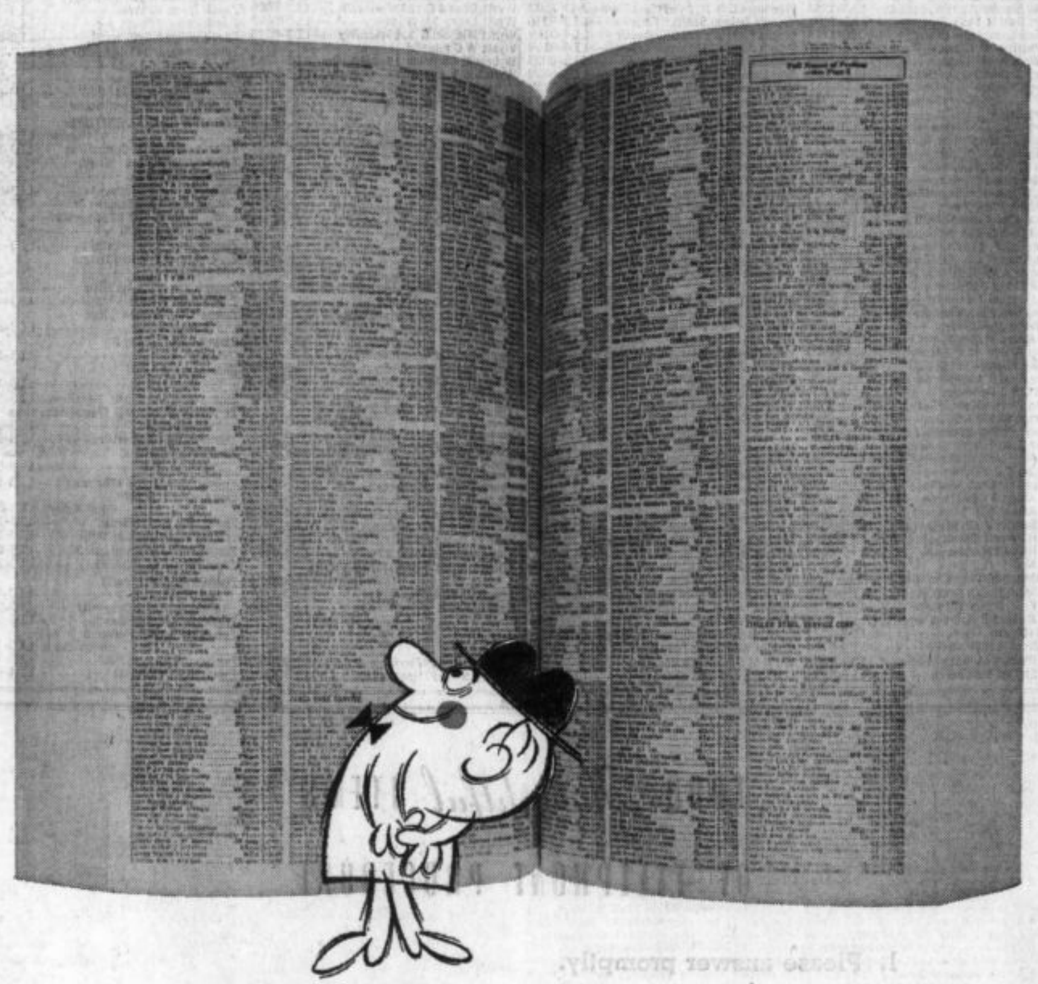
FOUR *Thoughtful* ITEMS
OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

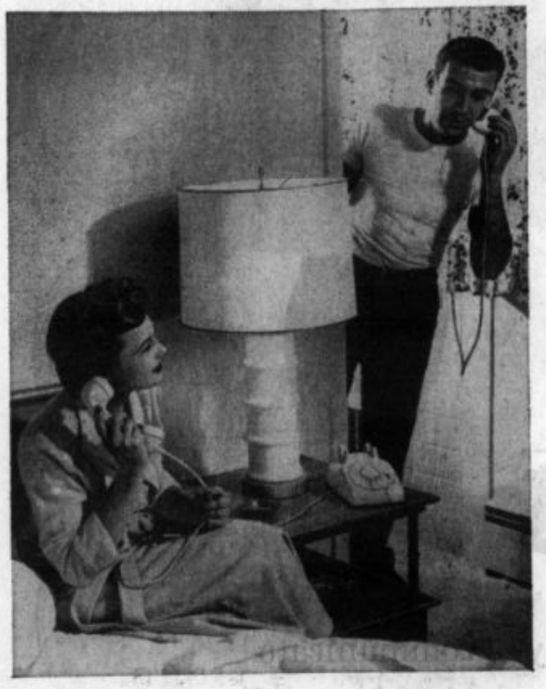


The quickest way to look up old friends is in your telephone directory. Checking it first saves time and embarrassing errors.

WITHIN EASY REACH for BUSY PEOPLE

in YOUR TELEVISION ROOM

A telephone will serve you well when located close to your favorite chair in the television room. No need to miss a part of any program to answer your important calls.



or at YOUR BEDSIDE

You will find a telephone a real comfort, ready at your fingertips during your resting hours. When sickness or confinement strikes, it is your tie to friends and pleasant moments. In an emergency, a link to help and security.

CALL YOUR PACIFIC TELEPHONE SERVICE REPRESENTATIVE

The only way to communicate
that's friendlier than a phone call.

9 OUT OF 10 BUYERS say (happily) "I find things fast in the **YELLOW PAGES!"**

So, if you want to be found (and fast!) put your ad where almost everyone looks first... *in the Yellow Pages!*

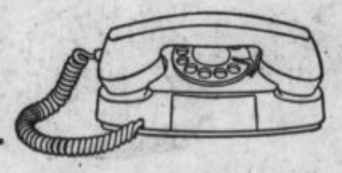
DDD GETS YOU THERE FASTER THAN ANYTHING!

When you dial your own long distance calls direct, you can be talking to your family or friends in just the time it takes to pick up your phone and dial the numbers. It's so easy . . . and it's fun . . . to use Direct Distance Dialing. And you call at the low station-to-station rate.

Someone out of town having a birthday or anniversary soon? Want to talk with a loved one far away? Take advantage of your Direct Distance Dialing Service and be there . . . fast!

rest assured

with an extension phone near your bed
...always ready to use no matter what the hour.



Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain Telephone Planning Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking." Such an introduction establishes identity, saves time and makes a good impression.

NAIL POLISH FOR METAL

To keep the bright metal bands on kitchen sinks and counters from staining your apron black, touch up the bands with colorless lacquer. If you can't get the lacquer, colorless nail polish will do.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement in stead of a brush, you will save lots of time and avoid lots of splattering.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.

TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver promptly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking.

TO REPAIR LINOLEUM

If you have a break in the edge of linoleum, take a good-sized piece of cloth (to reach well beyond the break at all points), cover it with glue and put it beneath the linoleum. Weight it down with heavy objects until it has had time to dry and set.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

The YELLOW PAGES are just about the handiest guide you'll want for finding people who do things, sell things, fix things.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through."

Good party-line neighbors are considerate party-line users. Remember these golden rules:
- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

KEEP LIGHT FROM MILK
Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

Good party-line neighbors remember to space their calls.

DDD GETS YOU THERE FASTER THAN ANYTHING!

When you dial your own long distance calls direct, you can be talking to your family or friends in just the time it takes to pick up your phone and dial the numbers. It's so easy . . . and it's fun . . . to use Direct Distance Dialing. And you call at the low station-to-station rate.

to carry your voice coast to coast,
and the call cost over $20.
Today you can almost hear a whisper,
and the cost is only a whisper, too.

Make "Phone Plans" part of your Home Plans...

built-in telephone facilities are inexpensive

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain Telephone Planning Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.
